Baldwin Adapter & Spin-on Fuel/Water Separator Advantages

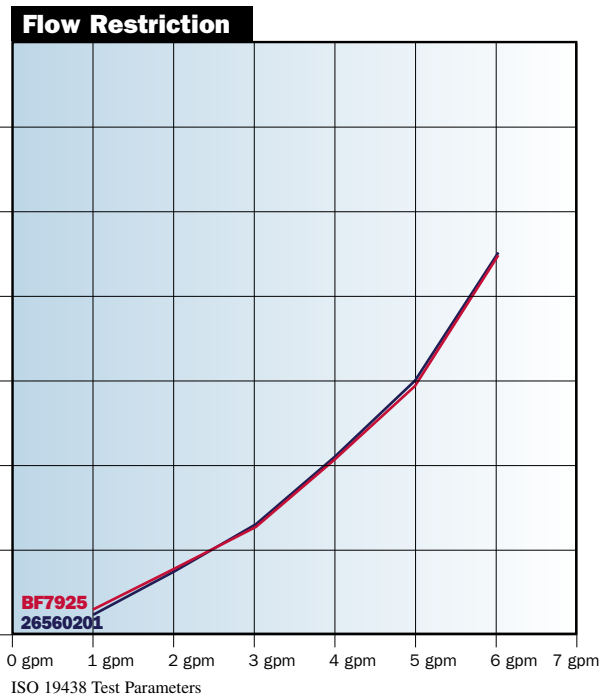

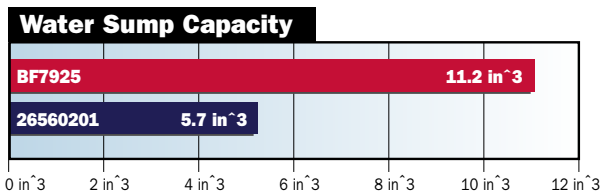

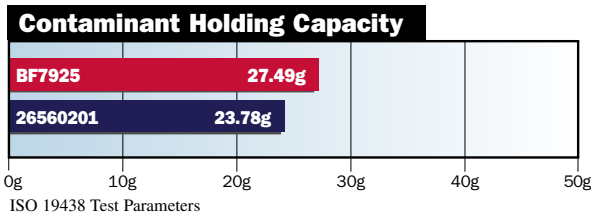

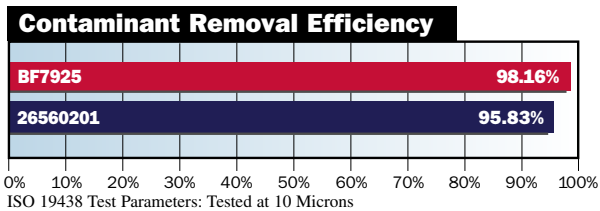

For applications previously using a PF7902 cartridge filter, Baldwin Filters is now offering a spin-on and adapter to make servicing the equipment easier.

A one time installation of Baldwin's FD7926 adapter converts the OEM's engine filter base to allow the use of the Baldwin BF7925 spin-on fuel/water separator.

The Baldwin FD7926 adapter and BF7925 filter require less room for servicing. The BF7925 provides better protection than the OE.
